RE: COMMITTEE REAPPOINTMENT LIST

We apologize, but the "Committee Reappointment List" is not available for inclusion in tonight's packet. Staff is in the process of fully vetting the list and will make it available, as early as possible, on Monday via e-mail. We will also include a hard copy of the list in the extra information packet Monday evening.

Don:

Can you see that this appointment is added to the regular July 1st appointments that I assume we will be acting on at our meeting next Monday?

Thanks
Peter

Hi Peter,

I'm pleased to report that Antonio Santoro, P.E. has volunteered to represent Acton on the LRTA Board as of July 1st, 2005.

Antonio, a member of the TAC, is a civil engineer with wide-ranging work experience on the Central Artery project. He has a strong interest in transportation and other land use development issues and is a pleasure to work with.

If his schedule permits, he will also try to make the June Board meeting in Lowell as well.

best,

Ann
